This is a complaint to the Calgary Assessment Review Board in respect of Property assessment prepared by the Assessor of The City of Calgary and entered in the 2010 Assessment Roll as follows:

ROLL NUMBER: 033043407

LOCATION ADDRESS: 4504 14 ST NE

HEARING NUMBER: 59384

ASSESSMENT: \$5,560,000

This complaint was heard on 21th day of July, 2010 at the office of the Assessment Review Board located at Floor Number 4, 1212 – 31 Avenue NE, Calgary, Alberta, Boardroom #3.

Appeared on behalf of the Complainant:

- Mr. G. Kerslake (Altus Group Ltd.)

Appeared on behalf of the Respondent:

- Mr. M. Berzins (The City Of Calgary)

Board's Decision in Respect of Procedural or Jurisdictional Matters:

NA

Property Description:

The subject property is an industrial property containing two multi tenanted buildings constructed in 1976. The subject property is located in the "McCall Industrial Park" district of NE Calgary. The buildings have a net rentable area of approximately 28,200 and 28,800 square feet (SF) respectively. The buildings are situated on an assessable land area of approximately 177,725 SF resulting in a building to site coverage of approximately 32%.

Issues:

The Complainant listed 7 points in his grounds for appeal, but during the hearing spoke specifically to the following issues:

- 1) The assessment regression model method used by the Respondent, failed to properly stratify or group sales of industrial property, included sales that have not been appropriately adjusted to reflect market conditions, and included sales that should not have been included and is therefore incorrect and does not accurately reflect the market value for assessment purposes of the subject property.
- 2) The aggregate assessment per square foot applied is inequitable with the assessments and sales of other similar and competing properties.

Complainant's Requested Value:

\$4,560,000 amended to \$4,900,000 (at hearing)

Board's Decision in Respect of Each Matter or Issue:

- 1) Issue 1 (as above).
 - a) The Complainant's evidence.
 - i) The Complainant provided a large document that was marked "Appendix A" and was entitled "Excerpts: Market Value And Mass Appraisal For Property Assessment In Alberta, Valuation Guide Introduction & Glossary". The Appendix is as stated in the title, a valuation guide for property assessment, describing the standard and accepted approaches to valuing property in Alberta. The Appendix also includes a capitalization rate (cap rate) study of various other industrial properties, Altus

investment trend surveys, legal submissions and other documentation. In addition, the Appendix includes a "2010 Improved Industrial Properties Sales Used" by the City of Calgary (City) in their Direct Sales Comparison approach to value the subject property.

- ii) The Complainant also provided new evidence not previously disclosed labelled by the Board as "Exhibit 1". The Exhibit contained recent Calgary Composite Assessment Review Board (CARB) decisions specifically related to industrial property valuation as well as excerpts from the Matters Relating to Assessment and Taxation Regulation (MRAT).

b) The Respondent's evidence.

- i) The Respondent provided a brief summary of three generally accepted practices or approaches to the valuation of property. Within that summary the Respondent provided evidence that stated that due to the abundance of market sales, industrial warehouse properties have been valued based on the sales comparison approach. The Respondent quotes various assessors' manuals and guides that simply stated, justify his approach to value and the Multiple Regression Analysis methodology used to value comparable properties to the subject.
- ii) The Respondent also provided new evidence not previously disclosed labelled by the Board as "Exhibit 2". The Exhibit also contained recent Calgary (CARB) decisions specifically related to industrial property valuation.

c) In reviewing the information provided by both parties the Board finds:

- (1) That we agree with the decisions made in the previous Calgary CARB decisions concerning valuation methodology. Specifically, ARB 0522/2010-P – "In short, the Board does not intend to identify preference on the valuation approach used by either of the parties.....Composite Assessment Review Boards judge the fairness and equity of the assessments which result from the valuation process, not the valuation process itself". This finding was also supported in ARB 0638/2010-P.

2) Issue 2 (as above).

a) The Complainant's evidence.

- i) A chart of equity comparables was provided for multi tenanted industrial properties and their respective 2010 assessments. The size of the comparable properties ranged from 36,804 SF to 63,650 SF. The assessments per SF of the comparables ranged from \$77 to \$91 with a median of \$87. Using the median of \$87 per SF to a combined net rentable area of 57,000 SF, the Complainant derived a value of \$4,959,000 for the subject property. The subject is currently assessed at rate of \$98 per SF for the combined net rentable area. It is noted by the Board, that the Complainant revised his analysis of equity comparables after considering the Respondent's equity comparables. The Complainant used a revised \$88 assessment per SF to a combined net rentable area of 57,000 SF and derived a revised value of \$5,040,000 for the subject property. As a result, the Complainant revised his requested assessment to \$5,040,000.
- ii) A chart of direct sales comparables was provided for multi and single tenanted industrial properties. The size of the comparable properties ranged from 40,000 SF to 262,000 SF. After time and other adjustments, the sales price per SF of the comparables ranged from \$75 to \$99 with a median of \$86. Using the median of \$86 per SF to a combined rentable area of 57,000 SF, the Complainant derived a value

of \$4,902,000 for the subject property. Again, the subject is currently assessed at rate of \$98 per SF of the combined rentable area.

- b) The Respondent's evidence.
 - i) A chart of equity comparables was provided comparing the 2010 assessments of similar properties to the subject's property. The size of the comparable properties ranged from 27,810 SF to 30,079 SF. The assessments per SF of the comparables ranged from \$93 to \$118. The subject property has an assessment rate per SF of \$98 for the smaller building and \$97 for the larger building.
 - ii) A chart of Industrial Sales Comparables was provided showing sales of comparable industrial buildings and their respective time-adjusted sale price per SF compared to the subject's assessment rate per SF. The chart indicates a range in sale price per SF of \$96 to \$156. Again, the subject property has an assessment rate per SF of \$98 for the smaller building and \$97 for the larger building.
- c) In reviewing the information provided by both parties the Board finds:
 - i) The revised assessed value submitted by the Complainant, through his equity analysis, is a reasonable estimate of value for the subject property.

Board's Decision:

The Board revises the assessment at \$5,040,000.

DATED AT THE CITY OF CALGARY THIS 4 DAY OF August 2010.
