ROLL NUMBER: 033044108

LOCATION ADDRESS: 1435 40 Ave NE

HEARING NUMBER: 62976

ASSESSMENT: \$7,920,000.00

This complaint was heard on 11th day of July, 2011 at the office of the Assessment Review Board located at Floor Number 4, 1212 – 31 Avenue NE, Calgary, Alberta, Boardroom 2.

Appeared on behalf of the Complainant:

- *C. Van Staden -- Altus Group Ltd*

Appeared on behalf of the Respondent:

- *M. Berzins -- City of Calgary*

Board's Decision in Respect of Procedural or Jurisdictional Matters:

No specific jurisdictional or procedural matters were raised during the course of the hearing, and the CARB proceeded to hear the merits of the complaint

Property Description: Subject property is located in the McCall Industrial area in NE Calgary. The site contains two (2) warehouse buildings which were constructed in 1992 and 1998 respectively. The property contains 3.34 acres of land. The buildings are 23,452 and 27,114 square feet respectively. Site coverage is 34.69 %. Respectively the buildings were assessed at \$112.00 and \$120.00 per square foot. The site is classified "Industrial-General" in the City of Calgary Land Use Bylaw.

Issues: The Complainant raised the following matter in Section 4 of the Assessment Complaint form: Assessment amount

Presentation of the Complainant and Respondent were limited to:

- Assessment value is overstated in relation to comparable properties.
- Income Approach vs Sales Approach

Complainant's Requested Value: \$6,790,000.00

Board's Decision in Respect of Each Matter or Issue:

The presentation made by the parties as part of CARB 1340 2011-P with regard to the Industrial Capitalization Rate Analysis was carried forward and outlined below.

In support of its use of the income approach, the Complainant outlined the cap rate study which is intended to substantiate the requested assessments. As the Board's decision on the utility of the cap rate analysis is applicable to a number of referenced decisions, the analysis will be reviewed by the Board and carried forward in subsequent decisions.

The Board's review and conclusion of the cap rate analysis and the City's response to it is that the Complainant's data (sample size of sales) supporting the analysis was too limited, and mixed typical and actual inputs. As such it did not generate the degree of confidence the Board

would need in order to accept the cap rate analysis. In addition, the Board noted that rent roll information could not be provided in disclosure due to confidentiality concerns but that the City could examine the data at the the Complainant's office. The Board found this to be problematic. The Board will have regard for the 2011 cap rate analysis as prepared by the Altus Group however it will determine its decision on each individual complaint based on the merits of the evidence submitted.

Complainant's position: The Complainant's requested assessment is based on the income approach. The data outlined to support this approach included a typical net market rents. Lease comparables were provided which indicated that the rates determined using City's assessment data of \$9.79 per square foot (blended) are unreasonable. It was indicated typical leases in NE Calgary of similar size range have a median base rate rent of \$7.62 per square foot. In addition a median business assessment rate per square foot calculation of \$7.60 per square foot was outlined.

The income approach presented concluded that the property value should be \$ 101.00 per square foot instead of \$112.00 and \$120.00 per square foot respectively, as determined by the City. No supporting information was provided through sales and equity comparables; however the subject property was sold in March of 2007 for \$11,950,000.00. With the appropriate adjustments, the complainant indicated the value of this property based on the 2007 sale should be \$6,795,953.00.

Respondent's Position: The City's presentation focused on showing that the sales approach to value is most appropriate and acceptable method to derive market value. Six (6) sales were provided in support of the 2011 assessment which resulted in a median of \$119.00 per square foot. The multi building co-efficient was outlined and how it was derived based on 2010 CARB decisions. The multi-building adjustment was applied in arriving at the assessment for the subject property. The 2007 sale of the property was considered dated by the Respondent. With regard to the income approach, the City indicated that it could not recreate the data analysis as completed by the Altus Group. The City did an assessment to sales ratio (ASR) test of the Complainant's data which produced an unacceptable ratio of 0.78, total median value.

Board's Decision: : Upon reviewing the verbal and written evidence provided by the parties, the Board found that the Respondent's evidence most relevant and compelling as to market value. The Complainant's requested assessment was not supported by the income approach.

Reasons: The Board determined that the sales approach as presented by the respondent was based on a good sample size and included the appropriate time adjustments and supports the assessment. The Complainant's position is largely based on the cap rate analysis which as stated above, the Board considers flawed. Site specific evidence does not support a reduction in assessment. The City did apply the multi-building adjustment which influenced the assessment downward. The 2007 sale of the property is no longer considered relevant in the current market place. Having regard to Section 467 (3) of the Municipal Government Act, the Board found no alteration to the assessment was warranted.

The Board confirms the assessment at \$7,920,000.00.

DATED AT THE CITY OF CALGARY THIS 4 DAY OF August 2011.
