ROLL NUMBER: 032029407

LOCATION ADDRESS: 2120 39 Ave NE

HEARING NUMBER: 64098

ASSESSMENT: \$2,410,000

This complaint was heard on 14th day of July, 2011 at the office of the Assessment Review Board located at Floor Number 4, 1212 – 31 Avenue NE, Calgary, Alberta, Boardroom 2.

Appeared on behalf of the Complainant:

- *C. Van Staden -- Altus Group Ltd*

Appeared on behalf of the Respondent:

- *M. Berzins -- City of Calgary*

Board's Decision in Respect of Procedural or Jurisdictional Matters:

No specific jurisdictional or procedural matters were raised during the course of the hearing, and the CARB proceeded to hear the merits of the complaint

Property Description: Subject property is located in the North Airways Industrial area in NE Calgary. The site contains a 17,846 square foot single-tenanted warehouse, with 72% finish, which was constructed in 1977 and is assessed at \$135.00 per square foot. The property contains 1.25 acres of land. Site coverage is 25.29 %. The site is classified "Industrial-General" in the City of Calgary Land Use Bylaw

Issues: The Complainant raised the following matter in Section 4 of the Assessment Complaint form: Assessment amount

Presentation of the Complainant and Respondent were limited to:

- Assessment market value is overstated in relation to comparable properties.
- Income Approach vs Sales Approach

Complainant's Requested Value: \$2,100,000.00

Board's Decision in Respect of Each Matter or Issue:

The presentation made by the parties as part of CARB 1340 2011-P with regard to the Industrial Capitalization Rate Analysis was carried forward and outlined below.

In support of its use of the income approach, the Complainant outlined the cap rate study which is intended to substantiate the requested assessments. As the Board's decision on the utility of the cap rate analysis is applicable to a number of referenced decisions, the analysis will be reviewed by the Board and carried forward in subsequent decisions.

The Board's review and conclusion of the cap rate analysis and the City's response to it is that the Complainant's data (sample size of sales) supporting the analysis was too limited, and mixed typical and actual inputs. As such it did not generate the degree of confidence the Board would need in order to accept the cap rate analysis. In addition, the Board noted that rent roll information could not be provided in disclosure due to confidentiality concerns but that the City could examine the data at the Complainant's office. The Board found this to be problematic.

The Board will have regard for the 2011 cap rate analysis as prepared by the Altus Group however it will determine its decision on each individual complaint based on the merits of the evidence submitted.

Complainant's position: The Complainant indicated that the best approach for assessment valuation is the income approach. The data outlined to support this approach included typical net market rents. Lease comparables were provided which indicated that the rates determined using City' assessment data of \$11.73 per square foot are unreasonable. It was indicated that typical leases in NE Calgary of similar size range have a median base rate rent of \$8.00 per square foot. In addition a median business assessment rate per square foot calculation of \$7.50 was outlined. The income approach presented concluded that the property value should be \$ 99.00 per square foot instead of \$135.00 per square foot as determined by the City. Supporting information was provided through sales comparables. Four (4) comparables in NE Calgary were outlined. The median sale price of the comparables was \$113.00 per square foot. In conclusion, the Complainant recommended to the Board that value of the subject property should be based on the sales approach at \$113.00 per square foot. Various CARB decisions from 2010 were included in the presentation for the Board's consideration.

Respondent's Position: The City's presentation focused on showing that the sales approach to value is the most appropriate and acceptable method to derive market value. Five (5) sale comparables were provided in support of the 2011 assessment which resulted in a median of \$135.00 per square foot.

The Respondent provided six (6) equity comparables, all located in NE Calgary industrial areas. With regard to the income approach, the City indicated that it could not recreate the data analysis as completed by the Altus Group. The City did an assessment to sales ratio (ASR) test of the Complainant's data which produced an unacceptable ratio of 0.78, total median value. The decision with regard to CARB 0859 2011-P was pointed to for the Board's consideration as a recent ruling on a similar complaint.

Board's Decision: Upon reviewing the verbal and written evidence provided by the parties, the Board found that the respondent's evidence most relevant and compelling as to market value and that the Complainant's requested assessment was not supported by the data presented.

Reasons: The Board determined that the sales approach as presented by the respondent was based on a good sample size and included the appropriate time adjustments and proved the assessment correct. The Complainant's position is largely based on the cap rate analysis which as stated above, the Board considers flawed. Site specific evidence and recommendation by the Complainant do not support a reduction in assessment as it was based on limited sales comparables. Having regard to Section 467 (3) of the Municipal Government Act, the Board found no alteration to the assessment was warranted.

The Board confirms the assessment at \$2,410,000.00.

DATED AT THE CITY OF CALGARY THIS 5 DAY OF August 2011.
