This is a complaint to the Calgary Assessment Review Board in respect of a property assessment prepared by the Assessor of The City of Calgary and entered in the 2011 Assessment Roll as follows:

ROLL NUMBER: 027120104

LOCATION ADDRESS: 55 Castleridge BV NE

HEARING NUMBER: 64001

ASSESSMENT: \$20,230,000

This complaint was heard on the 7th day of September, 2011 at the office of the Assessment Review Board located at Floor Number 3, 1212 – 31 Avenue NE, Calgary, Alberta, Boardroom 9.

Appeared on behalf of the Complainant:

- A. Izard

Appeared on behalf of the Respondent:

Board's Decision in Respect of Procedural or Jurisdictional Matters:

The parties and the Board agreed that the evidence, argument and rebuttal with respect to the issue of the correct capitalization rate to be applied in calculating the assessment of the Community/Neighborhood Shopping Centre(C/NSC), property located at 2929 Sunridge WY NE; would also apply to each of the other NE Calgary C/NSC property assessment complaints, to be heard by this panel of the Board. The affected properties are located at 3221 Sunridge WY NE, 33 and 55 Castleridge BV NE, and 10 and 850 Saddletowne Circle NE.

The Respondent advised that the current assessment of the subject property should be reduced as a result of an error in the total amount of retail space subject to assessment on the subject property. The Respondent recommended that the assessment be reduced to \$19,330,000 as a result of the error. The Complainant indicated that the reduction resolved one of the issues in the complaint, and also that the matter of the capitalization rate remains in dispute. The Board accepted the recommendation of the Respondent, and proceeded with the merit hearing on the capitalization rate issue.

Property Description:

The subject property is 8.26 acre parcel, improved with 66,820 square feet (sf) of retail space, known as Castleridge Centre. The retail space includes total CRU space of 62,745sf in various dimensions, and a pad restaurant of 4,074sf. A gas bar is also on the parcel and assessed based on one (1) square foot of space and typical annual income of \$45,000. The current corrected assessment using the capitalized income approach to value is \$19,330,000(rounded)

Issues:

What is the appropriate capitalization rate to be applied to the Net Operating Income(NOI) of the subject property?

Complainant's Requested Value: \$18,090,000

Board's Finding in Respect of Each Matter or Issue:

What is the appropriate capitalization rate to be applied to the Net Operating Income(NOI) of the subject property?

The Board finds that the Complainant presented sufficient evidence to shift the onus of proof to the Respondent. The Respondent was unable to demonstrate that a cap rate of 7.25% yields a better estimate of market value for the subject property than a cap rate of 7.75%

The Board also finds that previous Board decisions regarding the 2011 typical C/NSC cap rate were the result of very different evidence and argument.

The Complainant embarked on an exhaustive analysis of the sales, assessments, and assessment to sales ratios (ASR) used by the Respondent in support of the typical cap rate of 7.25% applied in the 2011 income approach to value assessment estimates for C/NSC properties in Calgary. The Complainant requested that a 7.75% cap rate be applied.

With respect to the sales, there were eight (8) submitted by the Respondent. When the analysis of the Complainant was concluded, only five (5) remained viable for purposes of identifying a typical cap rate. The Respondent was unable to defend retention of the three (3) sales questioned by the Complainant. When only the five (5) remaining sales are included in the analysis, the mean cap rate is 7.91% and the median is 7.81%.

The Respondent presented no evidence on the typical rates used to support the assessments of the sale properties, and therefore the cap rate and ASR results were also given little weight. The Complainant arguments and evidence regarding alternative typical rent rates were sufficient to meet their need to cast doubt on the assessment values calculated by the Respondent, and meet onus.

Board's Decision: The assessment is reduced to \$18,090,000(rounded), based on the typical NOI of \$1,402,040 calculated by the Respondent; capitalized at 7.75%.

DATED AT THE CITY OF CALGARY THIS 6 DAY OF October 2011.
