3 Sir Winston Churchill Square  
Edmonton, AB T5J 2C3

This is a decision of the Composite Assessment Review Board (CARB) from a hearing held on November 15, 2010, respecting a complaint for:

<b>Roll Number</b> 4132049	<b>Municipal Address</b> 10175 109 Street NW	<b>Legal Description</b> Plan: 9020932 Unit: 514
<b>Assessed Value</b> \$915,500	<b>Assessment Type</b> Annual - New	<b>Assessment Notice for</b> 2010

#### Before:

Steven Kashuba, Presiding Officer  
Jim Wall, Board Member  
Jasbeer Singh, Board Member

**Board Officer:** Annet N. Adetunji

#### Persons Appearing: Complainant

Chris Buchanan, Altus Group Ltd

#### Persons Appearing: Respondent

Allison Cossey, Assessor, City of Edmonton

#### PRELIMINARY MATTERS

1. Upon questioning by the Presiding Officer, the parties indicated no objection to the composition of the Board. In addition, the Board members indicated no bias with respect to this file.
2. At the outset of the hearing, both parties requested that most of the evidence and argument presented on this Roll Number be carried forward to four additional Roll Numbers which are under appeal in the same complex. The Board granted this request and considers Roll Number 4132049 to be the lead file for Roll Numbers 4132064, 4132080, 4132098, and 4132122.

## **BACKGROUND**

The subject property is a main floor retail/office condominium located at 10175 109 Street and legally described as Plan: 9020932 Unit: 514. The unit has a gross area of 2,825 square feet. The complex that the subject is located in was constructed in 1981 and has various retail/office areas on the main floor, an underground heated parkade and multiple floors of condominiums. The subject unit is occupied by a well appointed medical facility. The current year (2010) assessment is \$915,500 or \$324.07 per square foot.

## **ISSUES**

1. The sales comparables do not support the assessment.
2. The equity comparables do not support the assessment.

## **LEGISLATION**

**The Municipal Government Act, R.S.A. 2000, c. M-26;**

*S.467(1) An assessment review board may, with respect to any matter referred to in section 460(5), make a change to an assessment roll or tax roll or decide that no change is required.*

*S.467(3) An assessment review board must not alter any assessment that is fair and equitable, taking into consideration*

- a) the valuation and other standards set out in the regulations,*
- b) the procedures set out in the regulations, and*
- c) the assessments of similar property or businesses in the same municipality.*

## **COMPLAINANT'S POSITION**

1. It is the position of the Complainant that the assessment of the subject property for the current year is too high and, in particular, the current assessment is 60% higher than it was in 2009 (\$581,500).
2. The Complainant presented 11 sales comparables (C1, page 9), 4 of which occurred in Central McDougall subdivision while 7 occurred in the Westmount subdivision. On average, the adjusted sales price of these properties is \$259.36 per square foot while the assessment of the subject is \$324.07 per square foot. Further to this, the Complainant submitted that the comparables are located along major arterials and occupy central locations on the north side of the river. In addition, they are all retail or office condominiums as is the subject property.
3. The Complainant presented 11 equity comparables (C1, page 11), which were the same properties as presented in the sales comparables in #2, above and which, on average, reflect assessment values of \$278.63 per square foot.

## **RESPONDENT'S POSITION**

1. In support of the assessment, the Respondent presented 4 sales comparables (R1, page, 28). The effective year of construction for these sales comparables ranged from 1995 to 2005 while the year of construction for the subject property is 1981. One of the 4 comparables is located on Whyte Avenue and constitutes a refurbishment of the previous St. Joseph's Hospital and the other 3 comparables are located relatively close to the subject property in the down town area. The other variables of net building size, sale date, sale amount and adjusted sale price per square foot are considered in the table. Of particular note is the range of adjusted sale prices per square foot from \$341 to \$540 while the assessment amount of the subject property is \$324.07 per square foot.
2. The Respondent presented 4 equity comparables (R1, page 76) which are the same properties as presented in their sales comparables (see #1, above). Within this table are presented the variables of net building size, year built, and assessment amount per square foot. On average, the equity comparables are \$402 while the assessment of the subject property is set at \$324.07 per square foot.
3. In further support of their position, the Respondent presented Board Orders MGB 053/10; MGB 054/10; and a decision from CARB Roll Number 10153855, July 2010.

## **DECISION**

The Board confirms the 2010 assessment of the subject property at \$915,500.

## **REASONS FOR THE DECISION**

1. The Board considered the Complainant's submission that the current assessment is 60% higher than was the case in 2009. In examining the record, the Board agrees that this calculation is correct. However, the Board finds in favour of the Respondent because each year's assessment is considered on its market value and as compared with the assessments of similar properties. In this case, the evidence presented by the Respondent leads the Board to conclude that the subject property is assessed fairly and correctly.
2. The 11 sales comparables provided by the Complainant (C1, page 9) are significantly different from the subject in terms of location, quality of construction, size and nature of structures, and exposure to traffic to provide a true comparison. The Board, therefore, is not persuaded by the merits of these comparables.
3. The Board finds, based on argument presented, that the subject unit's location with dual exposure and frontage on an arterial roadway (109 Street) in the down town area, is superior to the Complainant's sales comparables (C1, page 9).
4. The Complainant confirmed that no adjustments other than time had been applied to his sales comparables. The Board was persuaded that other adjustments, particularly for location, if applied would result in an adjusted value indicated by the Complainant's sales comparables, which supports the 2010 assessment.

5. The Complainant submitted that the comparable sales used by the City included parking stalls (C1, page 5). However, only a scant mention of this was made in the oral submissions and the argument was neither pursued nor any supportive evidence provided.

A scrutiny of the Respondent's submission (R1, pages 29-75) revealed that while sales comparable #1 (R1, page 29) did include one underground parking stall, the other 3 comparables showed no indication of any parking stall(s) being included in the sales or the assessment figures. As a consequence, the Board finds that little weight can be assigned to the Complainant's position that the element of parking stalls makes any significant impact on the value of the comparables provided.

6. The Board is persuaded that the application of various adjustments to reflect differences between the equity comparables and the subject, particularly for location would result in the Complainant's equity comparables (C1, page 11) supporting the \$324.07 per square foot assessment of the subject.
7. The onus of proving the incorrectness of an assessment is on the individual alleging it. The onus rests with the Complainant to provide sufficiently convincing evidence on which a change to the assessment can be based. The Complainant's evidence needs to be sufficiently compelling to allow the Board to alter the assessment (R1, page 92).
8. It is for these reasons that the Board concludes that the assessment of the subject property is fair and correct should not be disturbed.

Dated this 17<sup>th</sup> day of November, 2010, at the City of Edmonton, in the Province of Alberta.

---

Presiding Officer

*This decision may be appealed to the Court of Queen's Bench on a question of law or jurisdiction, pursuant to Section 470(1) of the Municipal Government Act, R.S.A. 2000, c.M-26.*
