ASSESSMENT REVIEW BOARD
DECISION WITH REASONS**

CARB – 0217-0013/2010

PART A: BACKGROUND AND DESCRIPTION OF PROPERTY UNDER COMPLAINT

The subject property is a vacant land parcel located in the Box Springs Business Park development in Medicine Hat. The subject has an assessable land area of approximately 2.853 acres or approximately 11,545 square meters.

The subject property is zoned “General Commercial” and is assessed at a rate of approximately \$400,000 per acre.

PART B: PROCEDURAL or JURISDICTIONAL MATTERS

The CARB derives its authority to make this decision under Part 11 of the Act. No specific jurisdictional or procedural issues were raised during the course of the hearing, and the CARB proceeded to hear the merits of the complaint, as outlined below.

PART C: ISSUES

The CARB considered the complaint form together with the representations and materials presented by the parties. The matters or issues raised on the complaint form and addressed at the hearing are restated as follows:

1. The subject property’s assessment should be the same as in 2009 since there have been no changes to the property and since the market value of the property has stayed constant.

ISSUE 1:

The subject property’s assessment should be the same as in 2009 since there have been no changes to the property and since the market value of the property has stayed constant.

The Complainant’s position with respect to issue 1:

The Complainant provided a brief written presentation entered as “Exhibit C1” during the hearing. The Complainant stated that the original 2009 assessment of the subject was assessed at a rate of \$245,000 and reduced 30% for development time. Since “market value has stayed constant in the last year”, the Complainant requested that the 2010 assessment should apply the same assessment rate that was used in 2009.

The Complainant disputed two of the Respondent’s sales comparables because one was considered by the Complainant to be an internal transfer and the other sale was negotiated in 2007 when the market was higher.

DECISION WITH REASONS**

CARB – 0217-0013/2010

In addition the Complainant felt that the Respondent should have considered the Costco sale at \$1.00 per acre among the Respondent's sales comparables.

The Respondent's position with respect to issue 1:

The Respondent provided an "Assessment Brief" document that was entered as "Exhibit R1" during the hearing. Contained therein, the following evidence was provided:

1. A February 5, 2010 phone conversation between Mr. Belau and Mr. Hashem, quoted Mr. Hashem confirming the asking and selling price for commercial land in the Box Springs Business Park was around \$400,000 per acre, while light industrial was approximately \$275,000 per acre.
2. The Respondent provided a chart and corresponding map of two "Light Industrial" zoned land sales that occurred in the Box Springs area between June, 2008 and February, 2009. The median derived from these sales was \$262,755 per acre.
3. The Respondent provided a chart and corresponding map of four "General Commercial" zoned land sales that occurred in the Box Springs area between July, 2008 and May, 2009. The median derived from these sales was \$423,455 per acre.
4. An appraisal from Gettel Appraisals dated January 23, 2009 concluded that land in the Box Springs subdivision was valued at \$450,000 per acre. The report also quotes Mr. Hashem in support of the \$450,000 per acre asking price.
5. A post-facto sale in November, 2009 involving Suncor Energy Inc. showed that a land sale zoned "General Commercial" in the Box Springs area was sold for \$450,117 per acre.
6. A post-facto land exchange in November, 2009 involving 889479 Alberta Ltd (the Complainant) showed that a land exchange zoned "Light Industrial" in the Box Springs area was sold for \$22,363 per acre. This property is north of the subject.
7. The Respondent provided a table and corresponding map of "Equity Assessment Comparisons". The assessments for properties zoned General Commercial ranged from \$28,000 per acre to \$400,000 per acre depending on its proximity to Costco and other development. Properties around and south of Costco contained no adjustments and were assessed at \$400,000 per acre. Properties north of Costco and therefore further away from development were adjusted to \$70,000 per acre and down to \$28,000 per acre as one proceeded further north.

Decision: Issue 1:

In view of the above considerations, the CARB finds as follows with respect to Issue 1:

The Complainant has failed to justify that the subject's assessment should be reduced to the 2009 assessed value for the following reasons:

- The Complainant has failed to provide any rationale for the 2010 assessment of the subject property to be reduced to 2009 assessment appeal levels. The onus

CARB – 0217-0013/2010

lies with the Complainant to illustrate how the Respondent may have incorrectly assessed the fair market value of the subject property and offer alternatives through evidence. The Complainant failed in this endeavor.

- The Costco sale is not accepted by the CARB as representative of market value. The CARB agrees with a quoted statement from Gettel Appraisals that; "The value of this site was discounted to encourage Costco to locate with the development and create an anchor draw. The value displayed is therefore not indicative of actual market."
- The CARB accepts the evidence submitted by the Respondent that General Commercial zoned property in the Box Springs development is properly assessed at \$400,000 per acre.
- The subject property is assessed at approximately \$400,000 per acre. There were no adjustments or reductions offered to the subject's General Commercial assessment base rate because of its proximity to other development. This is equitable with other properties in close proximity to the subject.

PART D: FINAL DISPOSITION OF COMPLAINT

The complaint is denied and the assessment is confirmed as follows:

Roll No./Property identifier	Value as set by the CARB	Owner
146664	\$1,141,100	889479 Alberta Ltd.

It is so ordered.

Dated in the City of Medicine Hat, in the Province of Alberta, this 18th day of November, 2010.

Presiding Officer
