PRELIMINARY MATTERS

There were no objections to the composition of the Board or the process to be followed as outlined by the Presiding Officer.

BACKGROUND

The subject property, known as Sherwood Park Costco, consists of 14.18 acres of land (617,680 ft²) and improvements of 152,580 ft² built in 2005.

ISSUE

What is the typical capitalization rate for the subject property for the assessment period as of July 1, 2010?

POSITION OF THE COMPLAINANT

The Complainant argued that capitalization rates should be developed from sales comparables within the same municipality. The Complainant presented five sales comparables within Sherwood Park, similar to the subject property sales dates 2008/2009.

The capitalization rates range from 7.60 to 9.83% with an indicated average rate of 8.64% and a requested capitalization rate of 8.50%.

The Complainant further argues that if Edmonton comparable sales used in developing capitalization rates in Sherwood Park are used, then all sales of similar properties must be included in the analysis. It was noted that the four City of Edmonton capitalization rates comparables used by the Respondent in developing his 7.75% capitalization rate, range from 8 to 8.5% for assessment purposes by the City of Edmonton Assessment Department.

The Complainant indicated that they had removed two of the Sherwood Park sales as they were part of a portfolio sales transaction. It is the Complainant's opinion that multiple property sales without detailed analysis may be suspect.

POSITION OF THE RESPONDENT

The Respondent provided nine sales comparables in development of the 7.75% capitalization rate. Two of these same sales comparables were used by the Complainant. Due to the limited number of sales in Sherwood Park, the assessor included several Edmonton Metropolitan Region sales that occurred within 6 months prior to the valuation date of July 1, 2010. The average of the nine sales indicated a 7.54% average and a 7.50% medium capitalization rate.

The Respondent indicated through expert witness (Mr. Brian Gettel) that the capitalization rates applied are correct and consistent throughout Sherwood Park. Gettel Appraisals Ltd. prepared short narrative appraisals on 8 properties for assessment review purposes that support these findings.

Mr. Gettel concluded that sales utilized by the Respondent were realistic indicators of market capitalization rates for properties under analysis. Mr. Gettel indicated that two of the sales selected by the Complainant to be anomalies which clearly yielded rates well beyond what would be considered within a typical range for good quality retail projects.

DECISION

The decision of the Board is to confirm the capitalization rate at 7.75%.

REASONS FOR THE DECISION

The Board is of the view, as are both parties, that the best comparables are those within the same municipality. In regard to the subject, there is insufficient similar sales comparables to establish a typical capitalization rate within Sherwood Park.

The Complainant put forward five comparables, two of which indicate capitalization rates much higher than is typical within the metropolitan area as well as other Sherwood Park sales. The remaining sales of 7.79 (actual), 7.60 and 8.03% appear to fall within the range of comparables put forward by both parties.

The Respondent presented nine sales within Sherwood Park as well as surrounding municipalities indicating a typical capitalization rate of 7.50%. The Board is persuaded by the three Complainant sales as well as the Respondent's nine sales, that the typical capitalization is best represented by the 7.75% established by the Respondent.

The Assessment of the subject property (roll 8203006002) is confirmed at \$19,977,000.

Dated this 21st day of July, 2011 at Strathcona County, in the Province of Alberta.

Tom Robert
Presiding Officer
