TO: Gasfitters/Installers, Natural Gas Utilities, Propane Distributors, Accredited Municipalities and Agencies

In Alberta, under the Safety Codes Act, the inspection and approval of uncertified gas appliances and equipment is to be conducted by nationally recognized Certification Bodies and Inspection Bodies accredited by the Standards Council of Canada. **A special inspection is not intended to be used as a means to accept appliances and equipment when certified products of similar type are available.**

When certified products are not available, a special inspection and approval must be conducted by one of the following Certification/Inspection Bodies currently operating in Alberta.
